Candidate Appraisal

Vinoth Kumar brings with him 23 years of exposure in the Industrial sector covering thermal power, tobacco, paper, hotels, Natural gas distribution, Airport and EPC Power. He has in the past worked with DIAL, BG Group, ITC and NTPC. He is passionate about safety and aims to develop a sustainable and interdependent level of safety culture at the organizational level.

Technical experience and domain expertise:

He developed SHE manual in line with OHSAS 18001, ISO 14001 and ICAO guidelines was rolled out. While he was with DIAL, IGIA was certified for OHSAS 18001 and ISO 14001 He was instrumental in developing HSSE leaders in each group / department, who “walk the walk” and “talk the talk” from an HSSE standpoint. He developed HSSE objectives, both strategic and tactical and integration of these in to Company’s business plan. He institutionalized the behavior based safety process that was established in the year 2004 and is going very strong at the moment helping the organization improve the behaviors of employees across the organization

Track record of demonstrated achievements

- Monthly in-house HSSE news electronic bulletins
- Hazard and Near miss campaign
- BG India Safety Forum for Sharing Information
- Safety Award for Industrial Customers
- Behaviour Based Safety Process (BBS)

Personality

He comes across as a people oriented person who can and has influenced others by way of an assertive approach. He is very passionate about safety. He carries strong belief in values such as Team work, Trust, commitment, growth. His detailed orientation and experiments with new ideas has helped to keep employees engaged in safety and he wants to inculcate this as behaviour in the organization that he works with.

Outlook on Infosys Technologies

The role will give him the exposure to drive safety changes at the group level. He is highly recommended by senior professionals in the industry. He is keen to engage with you to discuss this in person and looks forward to your meeting with him..
